MILITARY EXPANSION, JAMMU AREA, INDIA

1. Eight newly identified or expanded military installations have been observed in the Jammu area in northwest India on photography [redacted] (Figure 1). Jammu is the center of military activity in this part of India. Military installations have apparently been established here as major supply and staging facilities for activities in the northern portion of the India/West Pakistan border.

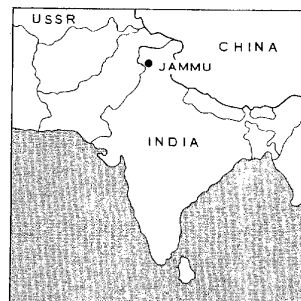

FIGURE 1. LOCATION MAP

2. The following is a summary of the newly identified or expanded installations:

a. Jammu Military Camp Northwest [redacted] 32-44-45N 074-49-35E). This installation contained 100 buildings (seven of which were under construction) and 85 tents. Approximately 25 vehicles or pieces of equipment were also observed (Figure 2). Eighty of the buildings had been built [redacted]

b. Jammu Barracks and Ammunition Storage [redacted] 32-48-05N 074-55-10E). The installation contained 770 buildings. Approximately 150 vehicles or pieces of equipment were also observed [redacted] 85 buildings had been built in the barracks area and 91 storage buildings had been added to the ammunition storage area (Figure 3).

c. Jammu Division Headquarters [redacted] 32-45-45N 074-52-25E). The installation contained approximately 53 buildings. Approximately 45 vehicles or pieces of equipment were also observed. Approximately 40 buildings, including 11 probable vehicle sheds, had been constructed [redacted]

d. Jammu Army Barracks Northwest [redacted] 32-47-25N 074-49-50E). This newly identified barracks area contained 13 barracks, 18 probable barracks under construction, 24 buildings, at least ten other buildings under construction, and 30 tents. A street pattern with ground scarring for additional buildings indicated probable further expansion. Only 50 tents were observed at this installation on the last previous coverage [redacted] (Figure 4).

e. Akhnur Ammo Storage Area [redacted] 32-56-10N 074-44-20E). This newly identified ammunition storage area contained 56 storage buildings dispersed in groups of four, and at least 30 other buildings. This facility had been constructed [redacted]

f. Akhnur Military Camp West [redacted] 32-50-50N 074-28-15E). This newly identified camp contained approximately ten buildings and 30 tents. Approximately ten vehicles or pieces of equipment were also observed. The camp is 3.6 nautical miles (nm) north of the India/West Pakistan border.

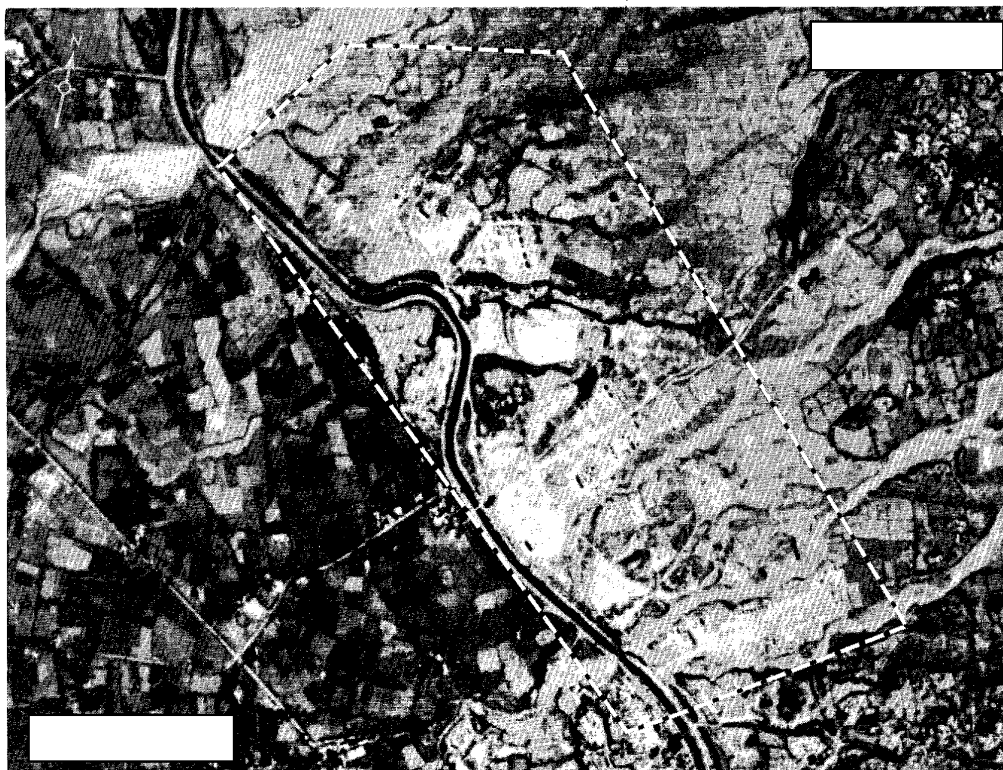

g. Akhnur Border Support Base [redacted] 32-51-15N 074-24-15E). This newly identified installation contained approximately 55 buildings and 70 tents. Several trails extended from the support base to strongpoints along the India/Pakistan border. Approximately 20 vehicles or pieces of equipment were also observed. The support base is 2.3 nm east of the India/West Pakistan border.

h. Akhnur Brigade Headquarters [redacted] 32-54-00N 074-44-00E). The installation contained approximately 85 buildings, 150 tents, and two athletic fields. Approximately 30 vehicles or pieces of equipment were also observed. [redacted] approximately 35 buildings had been constructed and 300 small tents have been replaced by 150 larger tents.
